

INDIA LEGAL METROLOGY RULES

Simple-English Reference for PackScan Bharat

Scope: Central Legal Metrology framework in India, principal rules and key current amendments available from official Department of Consumer Affairs sources. This is a project reference, not legal advice.

1. Principal Central Rules — Year-wise

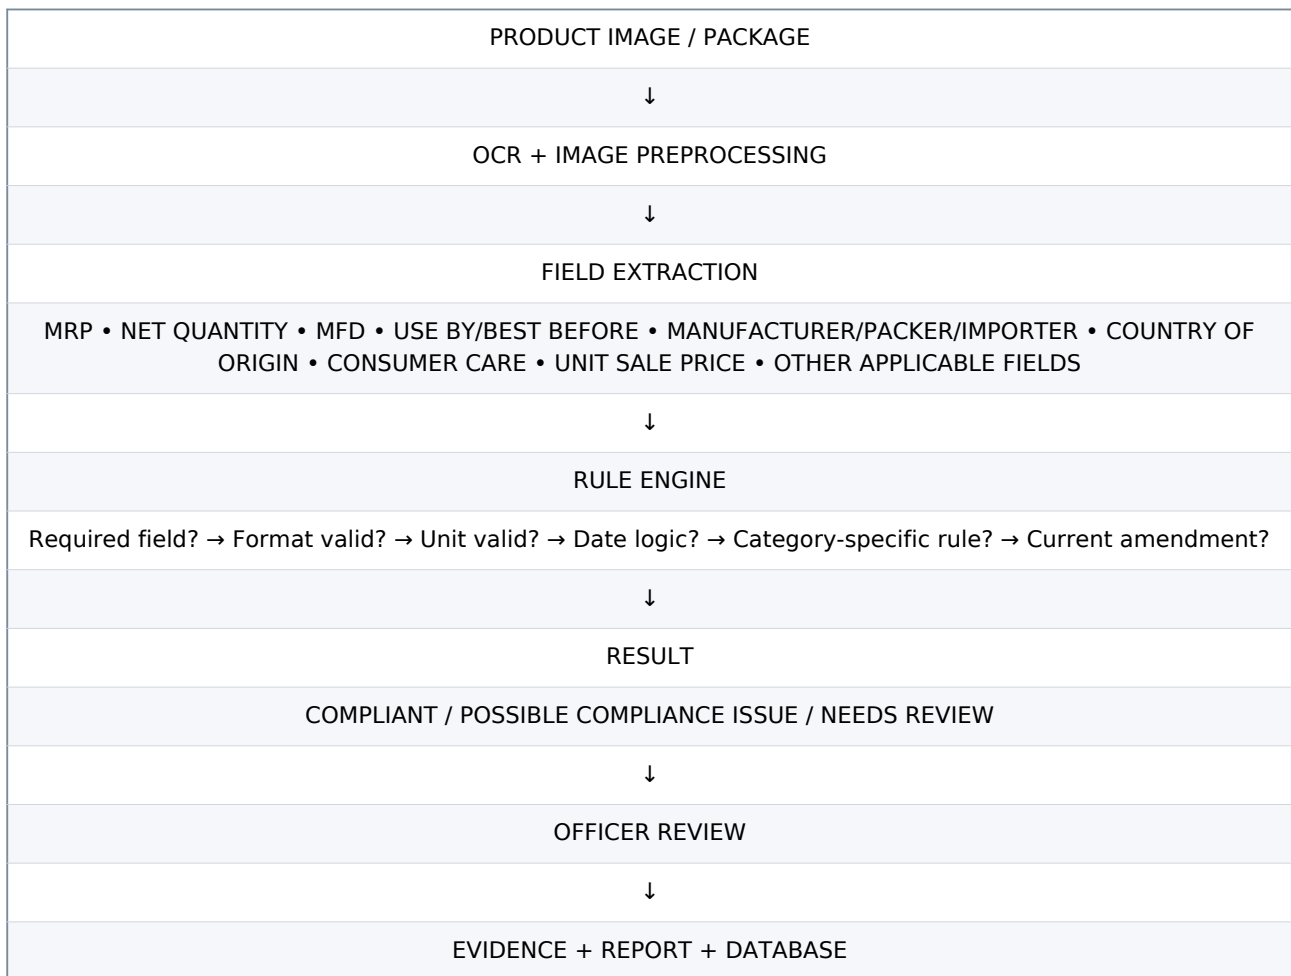

Year	Rule / Framework	Simple English purpose
2009	Legal Metrology Act, 2009	Main law for weights, measures, packaged commodities, verification, offences and rule-making.
2010	Model Draft Legal Metrology (Enforcement) Rules, 2010	Model framework for States; State Governments make their own enforcement rules.
2011	Legal Metrology (Packaged Commodities) Rules, 2011	Rules for pre-packaged goods and mandatory package declarations.
2011	Legal Metrology (General) Rules, 2011	Technical requirements/specifications and verification-related rules for weighing and measuring instruments.
2011	Legal Metrology (Approval of Models) Rules, 2011	Government approval of prescribed weighing/measuring instrument models before manufacture/import.
2011	Legal Metrology (National Standards) Rules, 2011	Framework for national measurement standards and traceability.
2011	Legal Metrology (Numeration) Rules, 2011	Rules concerning numeration/number representation under the Legal Metrology framework.
2011	Indian Institute of Legal Metrology Rules, 2011	Rules relating to the Indian Institute of Legal Metrology (IILM), Ranchi.
2013	Legal Metrology (Government Approved Test Centre) Rules, 2013	Framework for Government Approved Test Centres (GATCs) for prescribed testing/verification work.
2026	Legal Metrology (Indian Standard Time) Rules, 2026	Current central rules concerning Indian Standard Time within the Legal Metrology framework.

2. Packaged Commodities Rules — What the Inspector Checks

The Department's overview lists these mandatory declarations for packages. Exact applicability can depend on the product/category and current amendments.

Check	Simple English meaning
1. Manufacturer / Packer / Importer	Name and address should be declared as required.
2. Country of Origin	Required for imported products under the applicable rules.
3. Common / Generic Name	The product should be identifiable by its common or generic name.
4. Net Quantity	Quantity should be declared in the prescribed standard unit of weight/measure or number.
5. Manufacturing Date	Month and year of manufacture where applicable.
6. Best Before / Use By	For commodities that may become unfit for human consumption, applicable date declaration is required.
7. MRP	Retail sale price in the prescribed MRP format, inclusive of all taxes.
8. Consumer Care Details	Consumer complaint/contact information as required.
9. Dimensions	Where relevant, dimensions of the commodity/package contents must be declared.
10. Unit Sale Price	Unit sale price where applicable under the rules.

4. Important Amendments / Current Updates

Year	Update	Simple English project meaning
2019	Approval of Models amendment; National Standards amendment	Updates to model approval / standards framework.
2021	Packaged Commodities amendment; GATC amendment	Further changes to packaged-commodity and test-centre provisions.
2023	Packaged Commodities amendment	Further updates to package declaration framework.
2025	Packaged Commodities amendments	Updates included specific package declaration changes and exceptions; the Dec 2025 amendment concerning pan masala came into force 01-Feb-2026.
2025	GATC amendment	Government Approved Test Centre framework updated.
2026	Packaged Commodities Amendment	From 01-Jul-2026, e-commerce entities selling imported products must provide a searchable/sortable country-of-origin filter in product listings.
2026	General amendments	Department published General Amendment Rules in Jan 2026 and a Second Amendment in Feb 2026; verify the current official text before coding exact instrument rules.
2026	Indian Standard Time Rules	New central rule set listed by the Department in Aug 2026.

5. Rule Engine Design for PackScan Bharat

Rule Type	Example project check	Result
Required field	MRP is present	PASS / ISSUE
Text / format	MRP follows expected declaration format	PASS / REVIEW
Quantity	Net quantity has value + allowed unit	PASS / ISSUE
Date	MFD / Use By values are readable and logically valid	PASS / REVIEW
Country of origin	Imported product has applicable origin information	PASS / ISSUE
Consumer care	Required consumer-care information is detected	PASS / ISSUE
Category rule	Apply product-specific rule only when the category requires it	PASS / REVIEW
Evidence	Store image + extracted data + rule IDs + timestamp + hash	AUDIT RECORD

Important: Do not hard-code guessed legal limits. Store each rule with its source notification/rule number, effective date, applicability/category, enabled status and last-verified date. AI should assist with extraction/anomaly detection; final legal conclusion should remain with the authorized officer.

6. Suggested Database Structure for Legal Rules

Column	Purpose
rule_id	Unique rule identifier
rule_name	Short readable name
source_act	Act / Rules name
rule_number	Rule / sub-rule reference
description	Simple-English explanation
category	Product/category to which the rule applies
condition	When the rule should run
validation_type	required / regex / numeric / date / custom
value_or_expression	Configured threshold/pattern/expression
effective_from	Date from which rule applies
effective_to	Optional end date
source_notification	Official notification/Gazette reference
active	Enable/disable without deleting history
last_verified	Date the team verified the rule

7. Official Source Notes

- Department of Consumer Affairs, Government of India — Legal Metrology Act / Rules page.
- Department of Consumer Affairs — Weight and Measures page, listing the principal Central rules and noting that States also frame Legal Metrology (Enforcement) Rules.
- Department of Consumer Affairs — Legal Metrology overview, including packaged-commodity declarations.
- Official 2026 Gazette: Legal Metrology (Packaged Commodities) Amendment Rules, 2026; effective 01-Jul-2026 for the country-of-origin e-commerce filter requirement.

- Official 2025 Gazette: Legal Metrology (Packaged Commodities) Second (Amendment) Rules, 2025; pan masala exception effective 01-Feb-2026.

Before releasing a legal-compliance feature, verify the exact current Gazette text and any applicable State Enforcement Rules for the inspection location.
